SENATE.

THIRTY-FIFTH DAY'S PROCEEDINGS.

SATURDAY, Jan. 17, 1874. The Senate met at 11 o'clock, Lieut. Governor Brogden in the Chair. Journal of yesterday read and approved.

Reports of Commi tees. Mr. Murray from Engrossed Bills; Mr. Troy from Penal Institutions; submitted reports from their respect-

ive committees. Introduction of Bills. By Mr. Powell, a bill to insure the early completion of the Western Rail-

road to Ore Hill, in Chatham county. Referred. By Mr. Seymour, a bill to amend an act ratified the 5th day of April, 1871, entitled "A bill to allow aliens take, hold and convey lands." Re-

ferred. By Mr. Cunningham, a resolution authorizing the Superintendent of Public Instruction to subscribe for a copy of the State Educational Journal for each County Board of Examiners, the whole amount not to exceed

\$1,000, and to be paid out of the lit-

erary fund. By Mr. Barnhardt, a bill to amend an act passed at the present session, and for other purposes. Referred. By Mr. McCauley, a bill to authorize A. T. Stephens, Sheriff of Union county, to collect arrears of taxes.

Unfinished Business. The bill for the adjustment of the State debt was taken up as the unfin-

ished business. Mr. Morehead's amendment offered yesterday was adopted. The amendment reads as follows: "Add to section 5, "And Provided further, That it shall be the duty of the Auditor to ascertain, on the 1st day of April, 1875, and annually thereafter, the amount of bonds so exchanged, and he shall order the collection of a sufficient amount of taxes as above provided to pay the interest on the amount of bonds so exchanged until all of the said bonds shall have been exchanged according to the provis-ions of this act." He then offered the following amendment to section 5: Strike out 8½ cents on the poll in line 4, and insert 75 cents on the poll,

which was also adopted. The question then recurred on Mr

On motion of Mr. Morehead, of Guilford, the further consideration of the bill was postponed till 12 o'clock Monday, when the Senate adjourned.

change the time of holding Superior Courts in the counties of Rocking ham and Chatham, was taken up and passed its several readings.

On motion of Mr. Mitchell, the resolution of Mr. Houston protesting against the passage of the Civil Rights bill was taken up. Mr. Guyther moved to lay the resolution on the table. The year and

nays were called, and the motion was rejected by the following ballot: AYES.—Abbott, Bean, Bowe, Brown of Davidson, Bryant of Halifax, Bunn, Cobb, Corson, Dudley, Ellison, Foster, Gilbert, Goodwyn, Gray, Guyther, Hampton, Hughes, Jones of Northampton, Jordan. Mr. Guyther thought the whole thing premature. No one knew the status of the bill now pending in Congress. He thought the resolution

nugatory, Ellison, col., took the floor in opposition to the resolution, and expressed his disgust at some of the Republican members who voted against the tabling of the resolution. The Republican members from the East were put in their seats by negro votes, and they ought to face the music like men.

Dudley, col., next spoke in oppositiod to the resolution. He did not expect anything from Conservative members, but he did think he had a right to expect the support of all those who were elected by Republican votes. He wanted to see no dodging on the part of the white Republicans. The colored men of the State polled over 80,000 votes and they had a right to expect this recognition of

their rights by the white men who professed to be their political friends.

Mr. Blythe stated that he voted against the motion to table the resolution because he thought the colored people had better let well enough alone, and await the development of the future. He told the colored members that every blow they struck in this direction retarded their true prosperity. They could not control the West as they did some portions of the East, where they were in a large majority, and if they persisted in thursting themselves forward in this matter, they would be deserted by their present white friends, and soon be in such a hopeless minority that

they would be powerless to promote their future prosperity.
Ellison, col., replied to Mr. Blythe. He said that the colored man had secured no right which they now enjoyed by any effort of his own, but all had been given by the United states government. After replying at some length to Mr. Blythe's marks, he said that he would advise those white members who had been elected by negro voters to Norwood's amendment, when Mr. Dunham took the floor in opposition to its passage.

stay with their party, for with-out them what would they (Republican white members) do? He would Warlick, Waddill, Watson, Waugh, Dunham took the floor in opposition to its passage.

The discussion was contined by Messra, Flemming, Ransom and Worth publican party in the State.

Mr. Bowman, Rep., (interrupting) Will the gentleman let me ask him a question? Ellison—Certainly! Mr. Bowman-You say that you are opposed to mixed schools, then

why do you favor Congress passing a bid looking in that same direction? Ellison-I am opposed to that. Mr. Bowman-So am I. Ellison continued his remarks. He was opposed to these unjust discriminations on account of color, and concluded his speech by warning the white Republicans that if they turned their backs on their colored friends in this matter, they sounded the political death knell of the Republi-

can party in this State. Mr. Cox, of Pitt, Republican, was in favor of the resolution because he was opposed to class legislation. The colored people had every right before the law that he had, and they should be satisfied with their present status,

Abbott, colored, called the attention of the white Republican members to the fact how they had sat in Conventions with his race, and with uplifted hands and loud voices endorsed platforms which looked to the provisions contained in the Civil Rights Bill. But this took place just before elec-tions. Here were Messrs. Trivett, Copeland, Rhodes, Patrick, Bowman, Scott, Mizell and others, all white Republicans, voting against or refusing their support to nine-tenths of the party which elected them. Oh, yes, you are high for the nigger about election time, but when you secure your desires, you do not hesitate to give us the cold shoulder. He had requently seen that the white Republican members of the House had shown a disinclination to sudport mea sures put forward by colored men and inclined to seek their associations with Democrats. Here was Mr. Brown, of Davidson, who said when he voted against Dudley's Civil Rights Billjust before the recess, that he was in favor of Congress handling the matter, and now he denounces the passage of such a measure by that body. How does that gentleman reconcile this inconsistency? He did not expect gentlemen of the Democratic party to support any civil rights measure, for they had not been educated to it, but he had every right to look for a different course of action from the white men who had courted their votes and made them all sorts of promises looking to an abolition of all discriminations between the races. The gentleman from Pitt (Cox) said that the colored man had all the rights of a white man before the law. That was not so. He (Cox) could send his son to the University of the State, but he (Abbott) could not, that institution,

were now in operation, &c.
Williamson, col., deplored this contention among the white and colored Republican members of the House, and said it was a Democratic trick to

make party capital. Mr. Gorman offered the following amendment: "That this Legislature protests earnestly against the gentleman from Catawba (Mr. Houston) introducing a resolution into this body to raise a row amongst the Republi-cans of the House." The amendment was ruled out of

publican, and had all the time advocated giving to the colored people equal rights before the law, but he was not prepared to go any further.

"A laborious, pains-taking, earnest student, Col. Allen has, for many years, been the acknowledged leader of the Duplin bar, and has was not prepared to go any further. He did not like to see this exemplification of the old saying, "give an inch and an ell will be taken." He questioned. Not only as a lawyer, did not believe that the white Republicans of North Carolina were pre-pared to support any such law as is but in the various official positions proposed to be enacted by this bill with which he has been honored he

lay the motion on the table. Carried. Williamson, colored, offered the following substitute for the resolu-

tion: Resolved by the House of Representatives, the Senate concurring, That our Senators be instructed, and our Representatives requested to vote for such a bill as will secure equal civil and political rights, and against al! bills tending to an enforcement of social equality.

Mr. Jones, of Caldwell, offered the following amendment to the original

resolution: "Resolved, That the General Assembly of North Carolina do most earnestly and respectfully petition to the Congress of the United States not to pass the bill now pending in the House of Representatives, known as the Civil Rights Bill, believing as we do that the immediate effects of such a law would be the suppression of our public schools, for both white and colored, the closing of many of our houses of worship, the ruin of our land-lords and hotel proprietors, as well as the thorough demoralization of our society and the cause of bitter

strife between the two races. From a thorough knowledge of the situation we are satisfied that the bill would operate most disastrously to our best interest, and therefore we prefer this petition."

Mr. Houston called for the previous question, which was ordered. The question recurred on Williamson's substitute, which was rejected by a vote of yeas 46, nays 57.

(This was a strict party vote, with the exception of Mr. Bowman, Republican, who voted in the nagative.) The amendment of Mr. Jones, of Caldwell, was next put to a vote and adopted.

The question recurring upon the resolution, it was adopted by the following ballot: YEAS-Messrs, Anderdon of Davie, Ballard, Bean, Bennett, Blackwell, Blythe, Bowman, Bryson of Jackson, Bryant of Pitt, Bryan of Sampson, Bryan of Wilkes, Bryan of Alleghany, Brooks, Carter, Costner, Cox, Craige, Dickey, Duly, Ellison, Free-man, Gant, Gidney, Gilmer, Godfrey, Grady, Gudger, Haynes, Houston, Johnston, Jones of Cadwell, Jones of Tyrrell, Joyner, Johns, Lindsay, Luckey, Marler, Maxwell, McGehee, McNeill, Michael, Mitchell, Mizell, Moring, Moss, Norment, Perry of Bladen, Perry of Wake, Presson, Reid of Mecklenburg, Richardson, Rhodes, Settle, Shaw, Sharp, Shinn of Iredell,

A JUST COMPLAINT.-We have heretofore referred to the serious injury to our community by the turning loose of every criminal who is pardoned or otherwise set at liberty from the Penitentiary, and have asked that means be taken by our citizens to remedy the evil. The Grand Jury of Wake county, on yesterday, sent the following petition to Judge Watts, which was recommended by

that officer: NORTH CAROLINA, WAKE COUNTY. Superior Court, January Term, 1874.

HON. S. W. WATTS, Judge Presiding: Sir: The members of the Grand Jury of the county of Wake, now in session, would respectfully call the attention of your Honor to the large amount of crime which has been brought before us. In the investigations it has been proven that much of this has been done by convicts discharged from the Penitentiary at the expiration of their terms. Discharged without money or any means of reaching their old homes, they are unknown to our people, unable to find work, or more probably unwilling to work, they at once resort to plunder as a means of subsistence, and being skilled in crime, they are

detected with great difficulty. We would, therefore, ask your Honor to forward this memorial to the Senator from Wake with a request that he present it to the General Assembly and request, both upon the ground of common humanity to this unfortunate class and justice to the courty of Wake, that some provision be made by law to enable these convicts to reach their former homes. We would be glad to have your Honor endorse this memorial before transmitting it to the Senator from Wake.

DESERVED COMPLIMENT. - The Magnelia Monitor thus speaks of Senator Allen, from Duplin. We can endorse all said by our friend Hanna-

"It is not often that we use the columns of the Monitor to speak of those who occupy official positions, but we make no apology for placing the name of our distinguished fellowcitizen at the head of this article, nor do we feel that we have a right to remain silent relative to one whose life and public services have become so intimately interwoven with the in-

lawyer, and his legal opinions, always while practicing in the courts, is his now pending in Congress.

Mr. Bowman moved to postpone the further consideration of the matter until next Tuesday.

Mr. Bowman moved to postpone few. As a Senator he has reflected the highest honor upon his constitution until next Tuesday.

NO. 115.

Mr. Jones, of Caldwell, moved to ciary Committe, in that body, he has performed the onerous and responsi-ble duties pertaining to that position with honor to himself and infinite credit to the State. His profound legal knowledge eminently qualifies him for those duties, and probably no member of that body could discharge them with more accuracy and fideli-ty to legal and constitutional require-ments than he has ever done. His mind and taste are eminently legal-a clear thinker, with a remarkable power of analysis, without which no lawyer can hope for permanent suc-cess, he has established a reputation for legal knowledge such as few possess. He is deserving of, and would confer honor upon, any position in the gift of the people. Wearing ju-dicial honors, his knowledge and his inflexible integrity, would add much towards a restoration to its former lustre of the now tarnished name of the North Carolina Judiciary, It is a position for which he is eminently qualified, and one in which his tal-ents would add greatly to his usefulness as a fellow-citizen, and one to which we trust the hearty endorse-ment of the people will elect him."

> THE SUPERIOR COURT.—The Court met at the usual hour. The following are the transactions of the day. In the case of the State vs. Miller and Howard, tried on Wednesday,

and upon which the jury were una-ble to agree, a juror was withdrawn, and a mistrial entered on the docket. Gen. Cox, Solicitor for the State, informed his Honor that he had charges to prefer against certain members of the jury in the Miller-Howard case, for disorderly and drunken conduct and that they be made to appear and show cause why they should not be held for contempt. His Honor said that during his (Gen. *Cox's) absence information of the conduct of the jury had reached his ears, and he therefore had withdrawn a juror and

caused a mistrial of the case. Witnesses were summoned who stated that certain members of the fury were intoxicated while on the jury, and guilty of disorderly conduct. A summons was issued to the parties.

A BOMBSHELL IN THE RADICAL

CAMP.—Yesterday in the House of Representatives a bombshell exploded in the Radical camp in the shape of a resolution, introduced by Mr. Houston, of Catawba, condemning the Supplemental Civil Rights Bill, now pending in Congress. Its bursting created no little confusion in their ranks, and a direct split was occasioned be-tween the white and black wings of that party. Ellison, Dudley and Abbott, colored members, charged their white brethren who voted for the resolution with a breach of faith, and pointedly told them unless they stood square up to the colored race in this matter they need not expect negro votes in the next election. Most of the white Republican members from the East were made to place themselves on the record after being hard pressed by the Democrats and their colored brethren. Most of the Western Republicans supported the resolution, avowing openly that the white Republicans of their section would never swallow such doctrines as are set forth in the Supplemental Civil Rights Bill. The colored members were highly indignant at the course of some of their white allies, and it was highly amusing to see the embarrasment of those gentlemen in their desire not to allenate the negro element and at the same time keep their skirts unstained with anything like negro social equality.

THE CONCERT AT THE RALEIGH FEMALE SEMINARY FRIDAY NIGHT. -We have often been told, even by good amateurs of music, that it was not possible for a fine performer to be a good teacher. We had Friday night the proof of the contrary, and any body who has heard Dr. Meyerhoff's pupils perform will be of the same opinion with us. We have witnessed many an exhibition of the kind, but it is seldom that we have heard the performances of mercephole. heard the performances of merescholars brought to such a degree of perfection. We are sorry that our space is so limited that we cannot give a detailed account of the concert. Some of the pieces, however, were so good that we cannot resist the pleasure of mentioning them. We were particularly struck with the Galop de Bravura of Ketterer, an old favorite of ours, and the fine duet Eurianthe. Dr. Meyerhoff's skill as a solo performer is well known to all, and we will surprise no one in saying that his fine transcription of "Maritana" was loudly appared. tana" was loudly encored.

The readings were also very good and elicited the warmest applause. The Baptist congregation may justly be proud of the Raleigh Female Seminary, and we congratulate them on the fine corps of instructors who have that excellent school in trust.

THE AMERICAN SUNDAY SCHOOL Union.—The missionary operations of this society in North Carolina are reported by their agent, Rev. G. S. Jones, as encouraging, there having been over fifty schools organized during the past year. Mr. Jones is now with us in this interest, and has reason to be encouraged from the response he meets from our people of all denominations. All contributions are devoted to the Sunday School work in our State, without regard to sect. Communications may be addressed to the Rev. G. S. Jones, at Salisbury or Wilmington.

He will hold a Sunday School Mass Meeting at Durham to-morrow evening at 3 o'clock. REPRESENTATIVE GUDGER.-The

Piedmont Press says of Representative Gudger, from Madison :
"Mr. Gudger, the talented and go ahead member from Madison, favored qualified as Deputy Clerk of this us with a call last week. Mr. Gudger said, he had heard so much of Hickory he had determined to come and see for himself, as he thought he could then vote more wisely on great State projects after seeing the State metropolis, that is to be. We hope he went away, as did she of Sheba, proclaiming that the "half had not

Withdrawal.

As was briefly announced yesterday, my connection with the RAL-EIGH NEWS as its Political Editor has been severed.

This step is taken with the view of devoting more attention to my profession than I have been able to do as Editor of a daily newspaper.

of my brethren of the press I take leave with deep regret. I am proud to number among them some my best and warmest friends.

Of the Proprietors of this journal-with whom I have been associated from the day of the establishment of the paper to the present time, my relations have been most pleasant and friendly, and there has never occurred between us the slightest misunderstanding.

For them, as well as for the Local Editor, Capt. E. C. Woodson, and the News Editor, John C. Syme, Esq., I retire from the NEWS with the kindess feelings, and wish them all the full measure of success and prosperity both as journalists and as individuals.

To the readers of the RALEIGH NEWS I bid farewell with a heart full of deep emotions of sadness and grief.

During my editorial career, I have endeavored to discharge my duty to the public, whose good opinion I covet-to the Conservative party, whose principles I have striven to upholdand to the State of North Carolina, whose interests and honor I have kept steadily in view.

How far I have fallen short of this endeavor, it is for the readers of the

In my retirement I shall maintain the same political principles which I have always advocated through these columns. Upon the success of these principles, I firmly believe, depend the welfare and prosperity of the State, the security of the people's rights and liberties, and the peace, happiness and good government of North Carolina. God grant that the Old North State may yet take that high rank among her sisters which her unrivalled advantages, her undeveloped resources and her modest, unobtrusive virtues

SAMUEL T. WILLIAMS. Raleigh, Jan. 17, 1874.

The above withdrawal of Captain SAMUEL T. WILLIAMS, with a view fession, is announced by us with the most sincere regret. His invaluable Judge Tourgee, forbidding him to services to the Daily Newssince its commencement, and the ability which he has displayed in the editorial management of the same, have been fully appreciated by us, and we know they have been by the people of the State of North Carolina, whose interest he has ever had at heart; and in whatever sphere of life he may occupy in the future, he shall have our warmest wishes for his prosperity.

His expressions of kindly feelings towards the Proprietors of the NEWS are more than reciprocated, as a two years' intimacy has only served to weld together the warm relations which existed between us at the commencement of the publication of the NEWS

The News in the future will continue to advocate, with whatever ability it can command, the same principles which have been so ably advocated by Capt. WILLIAMS, and we hope to see at an early day North Carolina, like her sister State of Virginia, enabled to throw off every semblance of that yoke which has so grievously oppressed her for the last eight years. STONE & UZZELL.

The New Senator from Maryland.

We are glad to see that the Legislature of Maryland has selected Gov WILLIAM PINKNEY WHYTE to succeed Mr. HAMILTON in the United State Senate, whose term expires on the 3rd of March. Gov. WHYTE is a gentleman of fine

ability and enlarged experience, and will tak a high position among the leading men of the Senate.

On the whole, the Senate of the United States and the whole country can be congratulated at the result of the several elections that have been held for Senators within the past few days. Ohio has returned THUR-MAN-Virginia has chosen the gallant WITHERS to succeed the traitorous Lewis-while Maryland has made a decided improvement in selecting WHYTE over HAMILTON.

TEXAS gives proof of the blighting effects of Radicalism wherever it has had supremacy. By the vote of her people Coke and his confreres upon the Conservative ticket were, at the election recently held there, called to the control of her governmenal affairs. Their majority was 50,000; and yet the will of the people is deleated and their feelings insulted by the Republican office-holders in the State, who refuse to surrender their places upon a technical plea of illegality in the election. Nobody denies the fairness of the election; nobody dare say that any undue means were used to secure the Democratic victory. In violation of all decency; in violation of the tacit agreement made by entering into the contest, an agreement which is binding upon any man not totally lost to all sense of honor and are now under mortgage to a frightfair-dealing, the Republican office- ful extent.

Consolidation.

Being strongly in favor of any plan that would really insure the Carolina Railroad through to the State Line, we have had very little to say in regard to the Consolidation Bill, except to ask the Legislature to surround the bill with such safeguards as would insure that end. We cannot, however, but feel surprised that Maj. SMITH should now ask the Legislature to allow the Road to be sold out on default of payment of interest. This would put it in Major SMITH's power, by failing or refusing to pay the interest six months hence, to have the Road sold out at a mere song and bought in by the Pennsylvania Central or some other foreign rporation. We have but recently seen that a provision like that in this bill, allowing the Road to be sold for a default of principal only, (the dividends or earnings being pledged for the payment of interest) saved the State's interest in the Road from being sacrificed in the Swasey suit. In this connection, we copy the following editorial which appeared in

yesterday's Sentinel:
We call the attention of the Legisture to the act under the present mortgage of the Atlantic & North Carolina or "Mullet" Road, as called by President Smith, that by failure to pay interest the mortgage bondholders can foreclose and sell the road in thirty days, and the whole road, costing over \$2,000,000, would be sacrificed for \$200,000, unless some provision is made by the Legislature to

meet such possible contingencies. The road is over one hundred miles in length, and upon it is 10,000 tons of iron rails, which sold as old iron would bring \$400,000 with the rolling stock and other property valued at \$150,000. These facts will show the importance of a little further legislation on the hastily passed bill for consolidation, which is so distasteful

to Billy Smith and Buford. Remember how Sibley got his title or claims to the Western road. Dr. Mott, the President, borrowed \$200,-000 to be repaid in thirty days. As security for the loan he pledged or hypothecated a million of mortgage bonds. The interest was not paid. The bondholders sold the bonds, which brought twenty-four cents in the dollar. Then Sibley holding some million of bonds filed a bill to foreclose the mortgage in Judge Dick's Federal Court, and obtains a judgment, &c., for the sale of the road. After the horse is stolen our Executive Owl, who sees only in the dark, wakes up, locks the and cries stop thief. "Oh, a mighty fraud," said the Govern. He employed counsel, too, ate some of these ebjects. and the Legislature ordered Treasof devoting his time to the legal pro- attended court for the purpose and sign the appeal bond because one Harden, in Alamance, had at the suggestion of McAden and others swore he (Harden) might as taxpayer, be mulcted with costs, if the suit

OUR PRESENT CONDITION-PRESENT TAXATION.

should go against the State.

gaged with care.

Sir, from this imperfect catalogue of our losses let us turn for a moment to a view of our present condition; and the ability of the people to bear the taxation already imposed upon them; and let us draw our information from the most reliable sources at our command.

I begin by referring to the United States Census of 1850, by which the population of North Carolina is put lown at 992,622, and again by the census of 1870, our population is put down at 1,071,361. That is to say, in 20 years we gain in population only 78,739. If increase of population is evidence of wealth, we are making slow progress indeed-many single cities probably have outstripped us. But perhaps we have a much richer population. Let us see. By the same census for 1860, the number of acres in farms was 20,986,983; again by the census of 1870, the number of acres in farms was only 19,835,410. Showing a positive decrease of the number of acres in farms for that period of ten years to be 1,161,673. But perhaps the land retained in farms made up for the loss in quantity, by being greatly improved and thereby presenting a larger general value. such consolation. All will admit that owing to our system of agriculture, our land is gradually wearing out; and the area of waste and sterile land is annually increasing, and the decrease of fertility in the lands

in the number of acres. Popular education is the only remedy for this deplorable evil, and all persons will also admit, that owing to the present condition of our laborsystem or rather want of system the average lands of North Carolina can't be cultivated with hired labor at all. The cost of production, being more than the value of the crop produced, and attempts to work ordinary lands by tenants have proved to be more ruinous still. What sirs is to become of people who are physically unable

actually retained in cultivation is far

greater in proportion, than the loss

to do their own work? But we will proceed. Sir, we are also a stock raising people. That is a material branch of our business. And if any Senator thinks the leanness and poverty of the State has not been sufficiently shown, to excuse her for not being able to meet the enormous demands of our public creditors, let him prepare a table from the Auditor's report, exhibiting the number of horses, mules, cattle, nogs and sheep in each county, as compa ed with the inhabitants of the county, and while he is so engaged, I will ask another friend, to prepare another exhibit, showing what millions of dollars it costs this agricultural and stock raising population of North Carolina annually to obtain from abroad, work, animals, commercial manures, meat, grain, molases. etc., for the payment of which, farms, crops, an all plantation property,

fair-dealing, the Republican office-holders cling to the places from which the people, by the ballot, have driven the people, by the ballot, have driven the people of North Carolina are allowed us is only about \$1.50 per not responsible for the late war or head for all our people for all pur- its calamitous consequences.

poses of business. And as was naturally to have been expected, from this state of things, the National Banks, extort from the people the most enorcompletion of the Western North mous interest; the rate of 18 per cent. per annum being exacted by them as the lowest interest at which loans of money can be had. And as was also naturally to have been expected, our own State banks follow the example of the national banks, and lord it over a crushed and submissive people, in the same way. And no general business except extortion has seemed to

prosper since the war. The property, and the occupations, trades and business, of the people of North Carolina, have been assessed under oath, by duly appointed public officers, for the purposes of taxation. For the last fiscal year ending 30th September, 1873, what did it all amount to. I read, sir, from the Auditor's Re-

port. Total valuation of land, \$70,172,370. Why sir, our public debt is more than half the sum. The lands of the State loaded with debt to more than half their value! Town property \$43,-855,078, which is loaded down since the new order of things by local taxes more than it can bear. The next item is value of horses, cattle, mules and other domestic animals, \$16,994,578. How much northern hay, and north-western corn and oats are bought to support them? The last item is for value of farming utensils, money on hand or on deposit solvent credits, &c., \$23,839,430. This last item exhibit, first, the whole furnishing of all the implements of husbandry of 1,071,361 people engaged in agricultural; second, all that they have realized in the way of accumulated profits; third, the value of all kinds of business! Such is a very imperfect picture of our actual condition.

THE AMOUNT OF TAXATION. The grand sum total of the whole taxable property is \$124,821,456. And upon that magnificent schedule of taxables which assessment was made

last for the support of government. I read again from the Auditor's report. There was collected for the State taxes \$480,615. For all county purposes, \$912,908. This statement does not embrace township, city and town taxes for local purposes, which estimated at \$200,000, will probably be under the actual sum collected. Add these amounts together and we have the aggregate sum of \$1,593,523, assessed and collected on a valuation of only \$124,821,456 in property and effects, of which at least one half is unproductive.

CAN THE PEOPLE BEAR HIGHER TAX-ATION?

Sir, if the people can bear any further taxation, at the present time, it must be for objects which impose a higher obligation, a more imperious necessity upon them than even the door | admitted high and solemn obligation of paying the just and honest portion of their public debt. I will enumer-

1. We must put our system of urer Jenkins to appeal from Judge | Common School Education upon a Dick's decision to the Supreme Court | sure and reliable foundation. Half of the United States. The Treasurer our population over ten years of age t read or write, and 'all politi cal power is vested in and derived from them.' They hold all offices in their gift 'life, liberty and prosperity' are at their disposal. I suppose the wildest enthusiast for universal suffrage and equality before the law, never dreamed that such a mass of illiterates could safely be trusted with After this let railroads be mortthe Government of a State. For this and other cogent reasons, the people must be educated.

2. A Penitentiary is on hand, and a large number of our common jails have become insufficient for the safe keeping of and safety of prisoners, and are otherwise unfit for the confinement of human beings. And State policy, and common humanity. join, in requiring a great reformation

in this respect. 3. The present state of the country has added greatly to the number of the destitute and helpless poor, both white and black, throughout the State; a considerable portion of them being destitute orphans. Their friends and neighbors have not their former ability to take care of them. The destitute poor must be succored, and the orphans taken in out of the

4. But above all these, there is another class of dependents, still more helpless; and on that account more deserving our pity and our care. I mean the one thousand idiots; and half that number of insane persons, whom the ministering hand of our public charities has not yet reached. Hundreds of them daily knock at the door of our noble Asylum. But the door is shut. They cannot enter in; because there is no room. Afflicted of God! neglected and forsaken of their fellow-creatures! they return again to their hopeless destitution

and misery. Sir, if it were possible, for one united, intelligent voice, to ascend to us, from this assembled mass of our suffering fellow creatures-would we not hear

these memorable words? 'We are an hungered, and ye give us no meat; we are thirsty and ye give us no drink; we are strangers, and ye take us not in; naked and ye clothe us not; sick and in prison and ye visit us not.'

Yes, sir, literally in prison. The distinguished Senator from Sampson (Dr. Murphy) as President of our Board of Public charities, in describing the neglected condition of this most miserable class of afflicted fellow creatures, in language which went to the innermost soul of every Senator on this floor, among other things, told us, that some of them were confined in common prisons, and in pens, in a state too loathsome and shock-

ing to be repeated. Sir, God in his great goodness, has bestowed upon us faculties, which he has denied to them. Shall we 'pass by on the other side,' and leave them to their suffering? It cannot

Sir, as I have shown, the people of North Carolina now pay a tax of \$1,500,000 besides what they pay to the General Government. If they can pay more, it must be for the purposes which I have enumerated. And in my humble judgment it must be done, if we have to live on half rations

while it is being accomplished.

The only chance of the success of our government requires it-our common christianity requires it-our civilization requires it-common humanity requires it-a great overwhelming necessity requires it. And the same overwhelming ne-

cessity requires that the payment of even the just and honest portion of our public debt shall be postponed: But our creditors may, perhaps, turn upon us and say, "You brought all your trouble on yourselves, and we ought not to be made to suffer for

A Wonderful Cave in W. N. C.

—In the range of mountains in Western Carolina, known as the "Fork Range," a most singular phenomenon exists. It is a breathing cave. In the Summer months a current of air comes from it so strongly that a person can't walk against it, while in the winter the suction is just as great. The cool air from the mountain in the Summer is felt for miles, in a direct line from the month of the cave. At times a most unpleasant odor is emitted upon the current from dead carcasses of animals sucked in and killed by the violence. The loss of cattle and stock in that section in winter is accounted for in this way: they range too near the mouth of the cave, and the current carries them in. At times, when the change from inhaling to exhaling begins, the air is filled with various hairs of animals, not unfrequently bones and whole carcasses are seen miles from the place. The air has been known to change materially in temperature during exhalation, from quite cool to unpleasantly hot, withering vegetation within reach, and accompanied by a terrible, roaring, gurgling sound, a pot boiling. It is unaccounted by scientific men who have examined it, though no exploration can take place. It is feared by many that a volcanic eruption may break forth there some time. Such things have occurred in places as little unexpected. We hope our friends in the neighborhood will keep us thoroughly posted as to the movements of the strange mountain.

The strikers are in complete possession of the New Jersey Southern Railroad, and have stopped all work, and thus far successfully resisted all attempts to repair the track. Petersburg, Va., December 17th, 1873. To the Farmers and Guano Dealers of North Carolina and Virginia: Gentlemen: To the mary of you with whom I am personally acquainted, I would say, that of good results from GUANAHANI GUANO, I have not the shadow of a doubt. Containing, as it does, in such large amounts, the essentials for plant food, success from its application would seem certain. It being of animal origin, you will see at once that its ingredients must be all scluble in the scil. Its nitrogen, from nitric acid, is the most available form known to chemistry; the other part, from undecomposed animal matter, is preferable to the votatile salts in Peruvian Guano. I ask of each of you the kindness of a thorough examination of the accompanying analyses by two of the great chemists of the country. With respect, yours truly,

WM. R. GRIFFITH, General Agent.

THE COMPANY GUARANTEES THAT EVERY CARGO WILL BE ANALYZED BEFORE IT IS OFFERED FOR SALE.

GUARANTEED ANALYSIS. Ammonia, from both Nitrogen and Nitric Acid LETTER FROM PROF. WM. C. KERR, STATE GEOLOGIST OF NORTH CAROLINA: Raleigh, N. C., January 7th, 1874. Wm. R. Griffith, Esq., General Agent Guanahani Guano Company, Peters

burg, Virginia:

Dear Sir: Dr. F. A. Genth, whose Analysis of the Guanahani Guano you have shown me is Chemical Minerologise to the Geological Survey, and has no superior as a chemist. I have no hesitation in endorsing any analysis from his laboratory. And I think the analyses justifies his statement that the substance examined by him is a VALUABLE MANURE. From his report, and that of Prof. Wilson, it is evidently a TRUE GUANO, both in origin and composition, and its action on crops may be expected to be the same in kind and in degree, proportion to its relative per centage of the valuable ingredients—Phosphoric Acid, Ammonia and Potash, that of the first being unusually high.

Yours truly, W. C. KERR, State Geologist.

ANALYSES. The following analyses of different cargoes and samples by two of the leading chemists of the country, are given for the guidance of the public: LETTER OF PROF. P. B. WILSON, LATE ASSISTANT OF BARON J. VON LIEBIG. CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,

CHEMICAL LABORATORY OF PROF. P. B. WHISON, No. 30 Second Street,
Baltimore, December 1st, 1873.

MAJ. N. M. TANNOB, President Guanahani Guano Company, Petersburg, Va.:
Dear Sir: I have drawn samples of the Guano, as it has arrived in cargo lots, and find it exceedingly uniform in the amount of Phosphoric Acid it contains, namely, from 15 to 19 per cent. This is combined with Lime, and is of animal origin, and readily assimitable by plants. It contains potential ammonia and nitricacid, having a combined Nitrogeo value equal to from 2 to 3 per cent. of ammonia, with the alkalies Potash and Soda, and valuable propositions of sulphate of Lime. The whole forming a very desirable combination for all crops, and when applied to land, the crop receiving proper tiliage, must, in my opinion, give as good results as any guano offered to the farmer.

Being of animal origin, the organic matter has undergone partial decomposition, and it becessarily contains a valuable amount of Humus, which makes its fertilizing power much greater than fertilizers which are compounded large y of Peruvian Guano, which, beyond its ammonia and small phosphatic value, has little ar no power in absorbing from the atmosphere and retaining in the soil the movable elements absorbed by moisture and brenght down by the rains, as the guano you are now placing upon the market.

ture and brought down by the rains, as the guano you are now placing upon the market. All of the components of this Guano are very soluble in the soil, and possess such physical properties as to render it at all times and under all circumstances as in mediately are the food. The late samples you sent me f r analysis, from the deposit which you inform meyou ntend to ship from, show a decrease in the prosphetic value but intend to ship from, show a dec ease in the phosphatic value, but a large increase in its nitriges compounds. I think, however, from orevious observations of cargoes, that you may reasonably expect, that cargoes taken from where these samples were drawn, will materially improved in the saline compounds, (phosphates alkalt s and magnesia.

Respectfully, &c., P. B. WILSON, Analytical and Consulting Chemist.

Baltimore, December 1st, 1873. Maj. N. M. slightly soft bie in water, renders the cuant as quice in its action as a corresponding quantity of superphosphate would do. The small percentage of pot sh, which was found in the analysis, adds to its value.

From all the experiments which I have made of the Guanahani Guano, no doubt can exist that it is a valuable manure.

Mr E. A. DUNLAP,
Dear Sir: The extraordinary character of the season (a rain almost every day,) puts it
wholly out of my power te form an estimate of your Guano. The crops of c·rn and rutabagas to which it applied, look ve. y fine.

Yours, truly.

Mr. E. A. DUNLAP,
Dear Sir: I used your Guano on my wheat last fall, and I am highly pleased with it.
Think it is as good as the high priced Guanos. I have a good paying crop of wheat, and the best stand of grass I ever had, and this is the opinion of those who have seen both, but it is as good as the high priced Guanos. I have a good paying crop of wheat, and the best stand of grass I ever had, and this is the opinion of those who have seen both, notwithstanding the unfavorable winter and early spring. I shall use it again this fall.

Yours,

[This crop of wheat, 28 bushels to the acre, was noticed in the Wairenton and Alexandria papers, as the finest crop in Mr. Smith's county.] Bethel Academy, Fauquier County, Va., July 24th, 1873.

I used your Guano on wheat last year, and consider it equal to any guano I ever used t pleases me well.

LEWIS SHUMATE. Bethel Academ, Fauquier County, Va., November 12, 1873.

E. A. DUNL P. Esq.,
Dear sir: If I could have made collections, I certainly would have used two tons o
the Guano you sent me this fall.
I consider it better for wheat than any other Guano that has been used in this county since the war. M. C. BLACKWELL. Respectfully yours,

Mr. E. A. DUNLAP,
Dear Sir: The Guano purchased from , ou. was used upon coin by the side of one of
the best ammoniated soluble phosphates in the market. The quality of the land was
the same as was the quantity of guano and phosphate used. The corn where the Guano
w-s used appeared to start sooner, and in the fall was fully ten inches higher and ripened earlier than where the Phosphate was used.

Very respectfully, &c.,

Late firm of Neale, Harris & Co, Commission Merchants.

We, the undersigned, have sold your Guano for two seasons. Those that have purcha ed are buying again, and are pleased with the results.

L. KELLUM & CO., 119 Hillen street, Baltimore.

Cheston, Near Queenstown, Md., August 13th, 1873.

Dear Sir: I have your favor of 4th inst., making inquiries as to the results from application of the Guano which you sent me last fai. I applied it at the rate of 170 pounds per acre—the same quantity as of the other fertilizers I was then using. The wheat throughout the field bore much the same general appearance, with perhaps something in favor of your Guano. The grain of my crop on that field wasgenerally of fine quality, and I cannot say that I observed any perceptible difference in its appearance.

The result in quantity, (the most important point.) I regret not to be able to give you. Threshing my crop by steam power, my attention was occupied at many points at the same time, and on one of these occasions this particular parcel of wheat was threshed before I was aware of it, and without any note of its comparative yield. I therefore cannot pronounce positively in its favor, over others; but, from its general appearance, I judge it quite equal to other standard fertilizers of established reputation.

Very respectfully yours, Cheston, Near Queenstown, Md., August 13th, 1873.

Dear Sir: Yours of the 4th received and contents noticed. You must excuse me for not reporting to you sooner the result of the experiment with your Guano. I seeded it by the side of * * * * * * Raw Bone Super-Phosphate, at the rate of 150 ibs. to the acre, of each. Whilst growing, I. nor any to whom I showed it, could not perceive the least difference. The yield was equally good—about 25 bushels to the acre. I consider it equally as good as * * * * * s, in every respect. Please inform me the price, as I intend using some on wheat this fall.

Very respectfully yours, Mount Airy, Carroll County, Md., November 13th, 1873.

WM. R. Griffith, Esq., General Agent,
In reply to yours of the 12th, will ray, the farmers can say but little, as yet, in regard to Guanahani Guano. But Maj. A. G. Davis, who used one bag, by the side of several other fertilizers, says, so far, the Guanahani looks better than any of the others. All parties say, so far, they can see no difference in their grain wherever it is up-sufficient to judge. By the spring, I can give you a more satisfactory report. Hoping to have the pleasure of a visit from you, soon,

I am, truly yours, W. H. B. DORSEY.

P. S .- I have commenced making a stir for the Spring trade. San Marino, Dinwiddie Co., Va., November 18th, 1878.

W. R. Griffith, Esq.,

Dear Sir: Yours of the 12th inst., was received on yesterday, and, in compliance with your request, I hasten to reply. I purchased half ton of Guanahani Gua: o, from Messrs. Rowlett & Tannor, 1st of October, 1873, to use upon my wheat crop, as an experiment. I applied it 200 lbs. per acre. The wheat was seeded from the 18th to the 17th of October. I was very careful in the application, leaving two strips of land through the field; one of an acre, the other two acres. The one acre strip was manured with ** * * * Phosphate. The two acrestrip was in tobacco, heavily manured with stable manure and * * * * * Tobacco Fertilizer. I also sadded a strip of very poor land (stubble) on one end, three-fifths of an acre. Upon this I applied 100 lbs. of Guanahani, and also moistened the wheat and rolled it in the Guano. (I mean the wheat sown upon this three fifths strip.) The season has been favorable, and the young wheat is looking very well; and that upon the narrow strip of poor land, equally as good as upon the heavily manured tobacco land. I am satisfied hat the Guano is acting upon this strip of wheat, as the land was very poor. I do not think that it would be well for me to make a positive assertion just yet, bu will carefully note the result and let you hear from me again.

Yours respectfully.

THOS. F. RIVES.

Kingston, Dinwiddie Co., Va., November 26th, 1873.

Messrs. Rowlett & Tannor,

Dear Sirs: In reply to your inquiries in regard to the Gusnahani Guano, which I purchased last summer, I can only say that I applied it on my wheat crop, sowing it broadcast and plowed it in with the wheat. So far, I am vary much pleased with the Guano. Where I used it, the wheat looks better than any I have seen, and my neighbors who have seen; it, consider it so. I applied it the first of October, and it shows very plainly over the wheat where there was nothing used.

Very respectfully,

JOHN J. MITCHELL.

[Note.—Mr. Mitchell has since ordered 10 tons for his Spring crops] Millstone Landing, Md., December 1st, 1873.

Mr. E. A. DUNLAP,
Dear Sir: I am just in receipt of your letter, but regret that I did not receive it sooner.
I used your Guano side by side with * * * * * * * Ammoniated Super-Phosphate, and could perceive no difference, only in growth of the straw. The straw from * * * * * * * rather the largest. The grass from it was equally as good, and I do not hesitate in recommending it to farmers as a reliable fe: tilizer.

Very respectfully,

ELKANAH WISE. Dinwiddie County, Va., November 21st, 1873. Messrs. McLlwaine & Co., Petersburg, Va., Gentlemen: I used the Guanahani Guano, purchased of you, on wheat at the rate of 300 lbs. per acre, on corn land. The wheat is booking well. I think it will prove a good fertilizer.

A. M. ORGAIN. Sussex County, Va., December 12th, 1873. Messrs. Rowlett & Tannok, Petersburg, Va., December 12th, 1873.

Dear Sirs: I used on my wheat, sowed about the 1st of October, a half ton of Guanahani Guano, and sefar I am very much pleased with its action. Where I used the Guanahani the wheat is looking remarkably well—a great deal better than the wheat

Very respectfully, J. N. WINFIELD. Prince George County, Va., December 16th, 1873.

Messrs. Bishop & Branch,
Sirs: You ask me my opinion of the Guanahani Guano I puechased of you last fall.
I used the guano on my wheat, but owing to the unfavorable fail for the growth of wheat, it would be imposs be for any manure to show its strength fully. However, I think the guan oa good ertilizer, from the fact, that the wheat looks as well as it does where a well known fertilizer was used that cost nearly double the money.

Respectfully,
A. G. JORDAN.

Petersburg, Va., December 16th, 1873.

W.M. R. Griffiih, General Agent of the Guanahani Guano Company,
Dear Sir: In reply to your enquiry about the action of the Guanahani Guano on my
wheat crop, I would say, up to the present time it is looking very well.

Yours truly,

SAMUEL H. JONES,

Broad Run Station, Fauquier County, Va., December 4th, 1873.

Mr. E. A. DUNLAP,
Dear Sir: I let one row without your fertilizer, and used it on the next row. I used at the rate of 200 pounds to the acre. I had the corn care ully gathered separate, and found the result as follows: From the Guano row I shelled one bushel and nearly a half gailon; from the row without guano I got a half bushel and not quite a quart; making fully double where I used guano. The growth of stalk was not proportionately heavy—the strength seemed to go to the grain. I think it an excellent Spring fertilizer. The land I tried it on was quite thin. Yours, &c., A. D. SMITH. Mes rs. Rowlett & Tanner.

Gentlemen: Yours of the 15th is received. You ask "How I like the Guanahani Guano, so far?"

Guano, so far?"

In reply I have to say that I used five bags last fall, experimentally. I applied four bags to wheat at the rate of 200 pounds to the acre. I used the same quantity (200 pounds) on winter oats. The wheat was not sown until about the 20th of October, but has already a healthy, vigorous blade. The present indications lead me to believe that it is decidedly superior to any of the super-phosphates.

The winter oats we elsown the last of September. In the application to this crop, I have, in consequence of earlier seeding, a better opportunity of observing the effect of the Guanahani Guano. Here it is most marked and decided. It reminds me of former dys, when, for a moderate outlay of money, the farmer purchased the pure Chinchs Island. (unadulterated) Peruvian Guano.

I wish to try some of this Guano next year on cotton and tobacco.

I am, very truly yours,

GEORGE W. FIELD. GEORGE W. FIELD.

The Company recommend an application of from 200 to 250 pounds per

acre, but not over the larger amount. As it will be impossible to bring but few thousand tons to this country in time for the spring irade, orders must be sent: t an early day to secure it.

DEAR SIR: In compliance with your request, I have analyzed sample of "Guanahani Guano," and have made additional exam nation of an average sample from a lot of 300 tons, the result of which, I beg to embrace in the following. The Guano is a brownish powder, with lumps of combinations of lime with Carbonic Phosphoric and Nitric acids. It contains a considerable quantity of water about 20 per cent.), and when dried is a paler brown powder. The Guano is evidently of animal origin, and the minute bones, which were discovered in the same, indicate that it is the result of the decay of bats mice, &c. The quantity of organic matter, which is still present, is about 12 per cent., and this yields about 22 per cent. of ammonia. A portion of the nitrogen is present, as nitric acid, of which about 3 per cent. Wa found. All the nitrogen present would be equivalent to about 3½ per cent. of ammonia. The phosphoric acid in the Guano, about 12½ per cent., equal to 27 3 per cent. of bone pho phate. A considerable quantity of the phosphoric acid, however, is present, as so-called neutral phosphate of lime, which, being slightly soli ble in water, renders the Guan as quice in its action as a corresponding quantity of superphosphate would do. The small per centage of pot sh, which was found

Dear ir: Yours in regard to the Guano was received some time ago, and as I know very little, personally, about the effect it had, I laid it aside until I could go home and in Joire. I learn that it did improve the wheat to som; extent. I did not apply any other Guano. I applied other Guano. I applied Bone Dust, and I learn your Guano was of about the same efficacy in fertilizing, so far Bone Dust, and I learn your Guano was of accurate as the appearances of the crop indicated.

Please send me a bill for Guano, and I will send you a check.

DEPARTMENT OF JUSTICE, Washington, Jan. 17. Gov. E. J. Davis, Austin, Texas: Your telegram stating that according to the Constitution of Texas you were Governor until the 29th of April, and that Hon. Richard Coke has been inaugurated and will attempt to seize the Governor's office and builings, and calling upon the President for military assistance, has been referred by him to me for answer, and I am instructed to say, that after considering the fourth section, of article 9 of the Constitution of Texas, providing that the Governor shall hold his office for the term of four years from the time of his instalment, under which you claim, and section 3 of the election de laration? attached to the said Constitution, under which you were chosen, and which provides that the State and other officers elected thereunder shall hold their respective offices for the term of years prescribed by the Constitution, beginning from the day of election, under which the Governor elect claims the office, and more than four years having expired since your election, he is of opinion that your right to hold the office of Governor at this time is at least so doubtful that he does not feel warranted in aid you in holding further possession of it, and he therefore declines to comply with your request.
(Signed) GEO. H. WILLIAMS,

Attorney General. In the Mexican Veterans' Convention, on their return to their hall, the President called their attention to a beautiful vase, which had been placed upon a centre table in front of the platform, which came from South Carolina. He asked the Convention to receive it standing. He then called upon Judge Mackey, of South Carolina bistory. The vase upon Judge Mackey, of South Carolina, to give its history. The vase stands upon a squre base of 10 by 12 inches, and 4 inches in height, resting upon eagles' claws, all of solid silver, and beautifully chased in frost work, representing the charge and repulse at New Orleans. This vase was purchased solely by the ladies of South Carolina, two thousand subscribing for that purpose, and bore the follow-

ing incription on the front: Presented by the ladies of South Carolina to Major General Andrew Jackson, January 8th, 1815." On the adverse side is the coat of arms of South Carolina and motto and the inscription: "Presented by General Andrew Jackson to Captain W. B. Stanly, in trust for the last survivors of the Palmetto Regiment."

Judge Mackey said that the vase was presented to General Jackson by the ladies of the 39th Congressional District, of South Carolina, at the close of the war of 1812. Gen. Jackson bequeathed it to the State, to be oreign war should be deemed entitled to it by acts of valor and gallantry. It was decided after the late war that no man should be selected to hold it, and was presented to W. B. Stanly to hold in trust for the last survivor of the Palmetto Regiment.

In the Cheap Transportation Convention Judge Lochrane, of Georgia, opened the discussion on the report the Railroad Committee. He maintained that Congress has no right to attempt the regulation of railway business, basing his argument upon the Constitution of the United States. He contended that competition through the natural water ways of the country must be the reliance of the people for cheap

transportation. Mr. Gilbert, of Chicago, followed urging that Congress has the right to regulate the commerce by rail between the States and the several State Legislatures the right in strictly State

commerce. He argued that if legislation were enacted providing a series of penalties for the violations, competing transportation companies would inevita-

bly bring competition in freights to every railroad station in the country. Mr. Thomas, Iowa, presented the report of the Committee on Water

Routes as follows: Resolved, That some system of inland transportation, cheaper than that which we now possess, is the

great need of the country. Resolved, That water is one of the best and cheapest means for moving the heavy produce of the field, forest and mine, and that some system of internal transportation, which shall bring into freer intercourse the different sections of the country, is imperatively demanded, if we would revive our foreign commerce and increase and develop our domestic
